CAREER OBJECTIVE

My goal in a career within the tech industry is to be able to create and explore the many facets of web design. I thoroughly enjoy the world of UX/UI design. I aspire to be a part of a well built team of kind and compassionate engineers producing something we can be proud of.

TECHNOLOGIES

Front end: HTML, CSS, git, JavaScript, React, Bootstrap, Materialize, tailwind

Back end: Express, MySQL, NoSQL, API's, JQUERY, JSON, Node, MERN Stack

Relevant coursework: MVC paradigm, Agile development, Object-Oriented-Programing, Progressive Web Apps, MERN Stack

WORK HISTORY

Magruder Eye Institute - *Special Tester*

June 2021- Dec 2021

Managing a consistent flow of patients, using an array of different machines to take photos of patients eyes, keeping up with and creating injections for patients eyes as well as maintaining a clean and efficient work station.

SeaWorld/Discovery Cove - *Photographer*

March 2021- June 2021

Helped guests and families capture their unforgettable SeaWorld experiences in the SeaWorld park as well as in the water at Discovery Cove during the dolphin encounters. Practiced my customer service and sales skills with a wide variety of our local and global visitors.

Exulting Images - *Photographer*

Feb 2017- May 2017

Fast-paced work as a traveling dance photographer for groups ranging from duos and trios up to supergroups and production runs. Coordinated and handled sales of select performance photos to the dancers and their families. Organized the extensive file system of photos for future use.

PROJECTS

Plan it - *Mern stack group project organization/planner application.* Creating a space for you to effectively schedule anything you need to do in life. Utilizing React, MongoDB, GraphQL, Express.js, node and tailwind.

EDUCATION

University of Central Florida Full Stack Coding Bootcamp

Certificate

Expected Graduation: June 2022
